The Question Before the Postoffice Department,

EHALL WE HAVE SUNDAY MAILS?

A Problem That Has Boon a Vexeit One Nearer Solution New Than Then-Cther News From Washington.

WASHINGTON, Aug. 12 .- The question. of Sunday work in the government postal service is seriously engaging the attention of postoffice officials. The question is not new to the department. Fifty years years ago it was considered, and since that time various rulings and orders relating to Sunday work by government postal employes have been nuide. These orders have been as different as they have numerous, no two of them being ulike.

With the growth of the postal service. Sunday work has increased, and how to avoid working on Sundays, and at the same time supply the demands of the public, is a problem which tu-day seems to be no nearer solution than it was years ago, or at any time since the question first attracted the attention of post-office officials. There seems to be a direct conflict between the religious and business elements of the countr in nrging a settlement of this question. The former have demanded through petitions, letters, and appeals that Sunday work in the postal service should be reduced to a minimum, while the business element have constantly urged increased postal facilities regardless of whether the work was performed on

Sundays or week days. This question of Sunday work was prominently brought to the attention of postofilee officials during the administration of President Cleveland and when Mr. Vilas was postmaster general. Congress had passed a law providing that letters having a special delivery stamp on them should be immediately delivered on their receipt at any postoffice in the United States where the free delivery system was in operation. This was construed by Mr. Vilas, to mean that this class of letters should be delivered. seven days in the week, (on Sundays as well as week days,) and he issued in-

Then there immediately mose a clamor from religious bodies throughout the country against the descration of the Sabbath, and petitious and memorials piled into the postodice department by the thousands, asking that the instructions be revoked. On the other hand the business men of the country heartily supported the innovation. The sentiment against Sunday work was so strong, so respectable and ournest, that President Cleveland took the matter under consideration and the instructions of Mr. Vilas were withdrawn and postmasters left to their discretion in errying out the special delivery law on Sundays.

It remains in that condition to-day, In some cities this class of letters are not delivered at all on Sunday: in others only a few hours during the day, and in no two cities are the deliveries made at the same hour. This whole question of Sunday work, special letter delivery, window letter delivery, railway postal car work, star route and steamboat routes, will be taken up and considered by Postmaster General Wansmaker in all its different phases on his return from his vacation. Postoffice officials look forward to its settlement with interest, but because of the conflicting intorests hardly expect a solution of the question that will be satisfactory to the religious element, the business element and the government itself.

Washington, Aug. 12.—Dr. F. J. This, however, he regards as surprising, as the city is in coustant communication with Cruz, where the disease is said to two epidemic, and annually prevalent.

STEEL ASSOCIATIONS.

An Organ'zed Effort Belog Made to Advauce Prices in the Near Farme.

Pressure, Ang. 12.—There is an indication that the two steel associations which were dissolved during the troublous condition of the metal trule last November, will be reorganized and make another endeavor to advance prices. The associations were the Bessemer Steel association and the Mor-chants Steel association. The former included the manufacture of heavy blooms and slabs, while the lutter numbered most of the finished steel manufacturers. Both organizations formerly held monthly meetings and uphel leard rates in the western market, but during the demoralization of trade last wint r the members began to make individual cuts in the special list, and finally the manufacturers gave up all cudeavors to uphold the market, and the associations

A Mass Meeting of Miners at Streator, Illinois.

AN AGREEMENT NOT REACHED.

The Miners Hopeful of an Advance Being Secured and as Determined as Ever. Fears of Trouble in the Pennsylvania Coke Region.

STREATOR, Ill., Ang. 12.—The miners mass meeting in this city Saturday was not large, but its spirit was decidedly war like. The contingent from Kangley was extreme, and dominated the meeting to the disconfiture of the more moderate Streator miners. A motion to compromise on seventy-five cents was passed, but was reconsidered through the efforts of the Kangley men.

Six delegates were elected to attend the joint conference of miners an loperstors to be held under the suspices of the state board of charities at foliet. They were instructed to accept seventyseven and one-half cents as a basis of settlement. Secretary Cheeseman, of the executive committee, advised the Coal Run miners not to accept the award of the board of arbitration unless the clause relating to the term for which said award was made binding was strieken out.

A meeting of the Coal Run miners. held after the mass meeting, determined to stand by the award and to go to wack under it. A committee of the Coal Run miners waited on the officers of the coapany and affected an arrangement by which any settlement arrived at by the district, as a whole, will be accepted in place of the award of the arbitrators.

The miners are hopeful of an advance being secured, and show as much determination now as ever. The attitude of the operators is rigid and uncompromis-

The express car was crushed to pieces, and the engines of each train and nearly all the curs were thrown down an embankment. None of the passengers were injured.

The accident is due to negligence on the part of the engineer of the construction train, who was taking his train to a side ! track to allow the express to pass. FRANKFORT, Mich., Aug. 13-The steamer Dewar returned to Frankfort Sunday morning, having on board Sheriff Case and posse, who had in custody C. L. The sheriff also brought as prisoners John Lahn, an Indian, and Johannes Anderson, a lumbernun. The feeling here against Wright was so bitter that it was with difficulty the sheriff could force his way through the excited multitude. His posse surrounded the prisoners and marched them to the city prison, securely locking them in and leaving a strong guard to protect them from at-

During his short stay in Frankfort, Sheriff Case had secured the service of the Dewar for another trip, and almost before the crowd knew what course had been decided on, Wright was hustled aboard again. BASE BALL

Standing of the American Assuets-, tion and League Ciubs.

The past week has been an interesting one in base ball circles, the interest centering in the St. Louis and Brooklyn clubs in a close race for first place. At one time the Brooklyns had overtaken the leaders and were a tie, but immediately dropped several points back in the race. For the third position both Bal-timore and Cincinnati have had a hard fight, with the odds in favor of the former, while the Athletics have come up to be a participant in the struggle for that position. The present week promises several changes in the ranking of the clubs. The following is the standing of the clubs up to and including

THE LAW OBSERVED.

Only Two Arrests of Cincinnati Satoon Keepers.

CINCINNATI, Aug. 12.—The saloon keepers, as a rule, kept their pledge to keep their places closed yesterday. But two arrests for violation of the Owen law were ninde, and these were cases where confectionaries were kept open in con-nection with rooms in which liquor is regularly sold.

Asido from these the police found no Negligence Causes a Serious Accident Near occasion to note violations of the law, although it is a fact that in namy instances side doors were utilized. So quietly were they "worked," however, that to all intents and purposes the law was observed. As may be imagined, this marked change in the course of saloon keepers had the effect of making the city unusually quiet.

THE Prohibition vote in Kentucky dropped to about 2,000 at the late election. The Prohibitionlets seem to be getting the worst of it on all hands this year.

THE Indianapolis Journal says: "The multiplication of trusts and the tendency towards combinations is the most striking feature of the times."

The Journal should not wonder at this at all. When Blaine, the defender of trusts, and his man Harrison won, the trust business was given a boost.

A rull list of county officers will be voted for next August, besides a Clerk of the Court of Appeals and members of the constitutional convention, and there will be lively times in many counties. The Owensboro Inquirer says for the latter office especially our best men should be selected, and that it is none too soon to begin looking around us for them. The Inquirer is about right.

Brainwood, ILL., has hitherto been counted on for 200 Republican majority. had been visiting relatives in this city, Its population is mainly made up of miners and their families, who were told last fall that protection means plenty and free trade means starvation. The miners voted for protection, but the switch was misplaced and they have had starvation since May 1. They turned out the other day and elected a Democratic Mayor. It is pretty safe to count on these miners for the next Democratic nominee for President.

The duty on raw sugar no insurance. has an element of protection in it, but is, in effect a revenue duty, yielding over \$55,000,000 to the Treasury. On the Bourbon the following ticket was nomiother hand, the duty on refined sugar is nated: protective almost to the prohibitory point. It yields only about \$1,500,000 to the Treasury. Repealing the duty on raw sugar would benefit the trust. Repealing the duty on r fined sugar would smash it, and cheapen the cost of this prime necessity of life to every one of the 65,000,000 of consumers in this counirv. The people consume about 3,000,-000,000 pounds of sugar annually, and the tariff duty enables the trust to extort at least \$30,000,000 a year from them. The way to break the trust is to repeal the duty on refined sugar, or cut it down to such a point as will admit of the importation of refined sngar in competition with the product of the trust.

"Hutch" Dida't Run.

The Vanceburg Times, a Republican,

seems to be "on its par." It says: 'The reason that Hon. M. C. Hatchins is not now State Senator, is because he didn't | terms, circulars, etc. These being satisfacrun. The reason he didn't run is that Tuos. A. Then who has the right to sell the" Klds" judividually and collectively to the Republicau nominee? Suppose the "Mossbacks" allow the "Kids" to nominate the Congressman themselves then where does the promise come in? Or suppose somebody eise nemiuates him in a convention to which the "Klds" are represented, are they going to boit the convention or the ticket? Had "Hutch" been elected Scuator by the aid of the "Mossbacks" as he would have been, had he run, would that not have widened the breach in the Democratic ranks in Mason County, and then one faction or the other would have been sure to have aided the next Republican aspirant. There is oue good purpose subserved by the fallure of Mr. Hutchins to run, and that is the prevention of the use of boodle which if it could be ended entirely, would be better than the election of the whole Democratic ticket next

In the first place, "Hutch" wouldn't have been Senator had he run. The Times may not know it, but there are about as many Republicans who wouldn't have voted for him as there are Democrats who wouldn't have voted for Mr. Poyntz.

Literary Brokerage.

In these days every one is bitten with a desire to see himself in print. Everybody clse writes, why not we? Our stories are every bit as good as Smith's, our ideas perhaps better, but our early education has been neglected, our punctuation is uncertain and our spelling shaky. To send MS. in such a condition to a publisher is to waste our stamps. The copy will be returned by the next mail and fame and fortune with which we would so gladly have shaken hands pass us by without so much as a nod.

Oue puts the MS. in the fire and buries his golden dreams in its ashes, while another writes to a literary bureau, as it is called, for tory, the unlucky article is sent to the bureau to be revised, corrected, partly rewritten and copied out on the typewriter. It comes back as the young girl returns from boarding school, the same and yet different, with a polish, a finish which can be seen aud where the difference ties. The "copy" is now of the article.

These bureaus also advise one as to the best market fer literary goods, what publishers to address and what avoid, and for auother fee will "place" the article. Of course by the time one has paid all this his own profit is very small, but next time the writer will walk alone and deal with the publisher unalded—the burenu has furnished the footbold, the introduction needed.

The managers of these bureaus are writers themselves or the "readers" of the publishers, who increase their saiaries by working after hours. Each publishing house has at least euo of these "readers" and some two or three, whose business it is to read und decide on the articles sent to the house, so that they have a good knowledge of the public taste, and their opinion is of practical value.

As women write more than men it is only fair that the best known and most successful bureau in New York should be thut managed by a woman. Indeed, so successful has it become that a new branch has been openedplays are read, criticised, altered, adapted

and recommended to theatrical managers. These occupations are fair samples of the many departments which have been lately opened up in New York. There are many others which would, perhaps, seem more out of the wuy, for those given are remarkable chlefly as being the newest, that is in the United States, for, strunge as it may seem, the old world is far ahead of the new in this respect.-New York Letter.

Stephan, the woman who eloped several days ago with J. A. Gohres, the building contractor, has written her husband from Windsur. Ont., saying she is happy and they are going to Montreal. Mrs. Gehres is in terrible distress. She is sick and less four children to care for. Stephan does not seem to care whether his wife returns or not. He says his children are old enough to get along witho t their mother, and he would never live with hor again anyway.

One of the Hotels at Blue Lick Springs Destroyed by Fire.

The "Arlington Hotel" at Blue Lick Springs was destroyed by fire at one o'clock this morning.

A telegram this morning stated that most of the furniture was saved, and that no lives were lost. Some of the guests lost their baggage.

The "Arlington" was owned by Captain Dan Turney, of Paris. The fire caught in the kitchen.

The loss is \$33,000. Insurance, \$15,-

Major T. J. Chenoweth and wife, of this city were stopping at the "Arlington" last night and had to move pretty lively to get out of the burning hotel. They lost part of their baggage.

There were 118 guests in the house at the time, and many had retired for the night. The excitement for awhile was lniense, and there were many narrow escapes.

County Court Doings. The regular term of the Mason County

E. Francis Masterson, guardian of Minnie Hurst. Geo. W. Sulser, trustee of Littleton

"Sweet Owen."

Owen County comes up with 2,000 Democratic majority. It reminds one of old times, when "Sweet Owen" always headed the Democratic column. For more than a half century Owen County has kept the faith, and her sons continue to tread the steps their fathers trod. Occasionally Daviess is the fashionable Democratic County, and sometimes it is Warren, but Owen, "Sweet Owen," never balks; she is as staple as smooth "fourfoot-four" mules were before the war. Then Trimble, though not very big, always casts a nearly solid Democratic vote.-Louisville Times.

GREAT DANGER OF AN EPIDEMIC.

The Worst Pest Holes are Selected for Those Convicted of Violating the Crimes Act - Petitions for Mrs Maybrink. France's Policy a Peaveful One - Other Foreign Dispatches.

LONDON, Aug. 12.—Reports of the unhealthy condition of the prisons in which Irish political prisoners are confined are causing considerable excitement, and the government comes in for its share of the blame. Many of the more excitable critics of Mr. Balfour do post holes among the Irish prisons are horrible butchery is reported from purposely selected for the incarceration McDowell county. The particulars are of those convicted of violations of the crimes aut.

The condition of the prison at Talcarragh particularly is referred to as a disgrace to civilization, and it is pointed out that, although the attention of the authorities has been called to it repeatedly within the past year, nothing has ever been done to remove the danger of an epidemio, to which its filthy condi-

tion has been a standing invitation.

On Thursday last John McGee was released from this pest hole, in a pitiable
condition, and when he reached his home it was only to die the next day of typhus fever. He had entered the prison a picture of health. He came out a physical wreck. Another prisoner, a nan named Frieze, who was only re-leased a few days ago, is also dead from typhoid fever, contracted while in con-

Paris, Aug. 18.—President Carnot yesterday received a delegation of American and English students, who are attending different institutions in Paris. In his speech to the students he referred, in complimentary terms, to the head of the grent American republic and to the Queen of England. Referring to their spokesman's assurances of symputhy with the political institutions of France and with the aspirations of the French, he said he gratefully accepted this symputhy, not merely as a gratify. this sympathy, not merely as a gratify-ing evidence of their good will, but for the practical benefits which could be made to flow from it to the young re-

"Though you are not Frenchmen," said the president, "and though you do not expect to exercise the privileges of citizenship umong us, you can do the French republic a signal service. When you return to your homes in England and America, as citizens of your own countries, you will be called upon to make a choice between the supporters of a policy of concord and amity with other nations, and that of defiance and distrust, which at this very moment, paralyzes the strength and wastes the resources of so many people. Let your voices be for concord and amity, shin the counsels of those who won your minds with the poison of hatred and distrust and bend your enegies to the noble work of drawing closer the ties of friendship which bind other uations to you own. Above all, assure your own people that this is, an I will be, the policy of the French republic and in doing so you cannot fail to aid in the triumph of that policy."

At 11 e'clock the firm tone disappeared, and prices generally sagged off, and in many cases were brought down below the opening figures. Sugar Trust was especially weak, and all the advance of the previous hour was lost with something in addition, but the changes in the other stocks were small. Oregon Navigation, however, was strong, and rose 9½ per cent. en very slight transactions. The market was without further feature, and closed quiet and heavy generally at slight fractions lower than first prices. The bank statement shows a decrease in the reserve of \$1,423,050. Total
